TO THE PEOPLE.

The high tuition exacted by professors of music has placed its acquirement in the hands of comparatively few, and beyond the reach of many. Hundreds of dollars are sometimes spent in obtaining a knowledge of music, and many would be glad to continue lessons, having once made a good start, who are prevented by circumstances. The public demand a change. In the interest of THE PEOPLE we have arranged a system of classes for the piano, organ and guitar, whereby the youth of our city who have not already engaged teachers, can have an opportunity of learning music, with a fair prospect of obtaining a thorough course at much less expense than by the old method of individual lessons. Those preferring the latter can also be accommodated at reasonable rates. We have noted with pleasure the good work of Brother Evan Stephens. His success should encourage us all to work for the good of the people at large. The twenty-one pupils selected from the Sabbath schools for one term on the organ gratis were to have commenced this week, but owing to a few wards not reporting, those classes will delay until next Monday, when it is hoped all will be ready. Our terms to additional classes will be 20 cents per lesson for each pupil on either instrument—piano, organ or guitar. Two lessons per week. A few more will be received in THE TELEGRAPH CLASS at 10 cents per lesson. Respectfully,
FLORA SHIFF HILL,
H. J. HILL, Box 227.

At a meeting of the underwriters, to-day, they declined to accede to the request, saying they were in habit of adjusting rates according to the nature of the risk, and they agreed to increase the rates of insurance after October 1st.

St. Catherine, Ont., 25.—Three young men, Chabillon, Oregon, and Hoge, upset a boat on the canal. Chabillon and Cregor were drowned.

One on Postmasters

Washington, 25.—For some time the postoffice authorities have been receiving complaints from the west, that certain postmasters, in violation of law, refused to accept such small coin as pennies and 3 cent pieces in exchange for postage stamps. In localities from which these complaints have been coming, 5 cent pieces are the smallest coin in general circulation, and although, by the provisions of section 358 of the Revised Statutes, postmasters are directed to accept minor coin for postage stamps to the amount of \$2.50. Postmasters at these places evidently thought that an exception would be made in their cases. At last a complaint came through the secretary of war from the commander of the military post at Ford Bluff, California. Acting Postmaster-General Hazen to-day notified the postmaster at this place that hereafter he must conform to the law, and similar instructions will be given to all other postmasters who have violated the law in this manner.

An Appeal.

Quebec, Canada, 25.—The new prefect, appointed by the Pope over the vast district of the north shore of the St. Lawrence from Blaine Sable to Hudson Bay, makes an urgent appeal to the public for charity for scattered settlers and fishermen on the Labrador coast, threatened with starvation through the utter failure of crops and of the seal and cod fisheries.

EGYPT.

Alexandria, 24.—The Khedive offered the British consul general a grand cross of the Order of Osman bostow. The Khedive will leave for Cairo to-morrow. He invited Admiral Seymour to accompany him, but the latter was unable to accept the invitation. Solemn services of thanksgiving for British pacification of the country were held in the Catholic Church here to-day. The congregation was very large, and included foreign consuls, British and military authorities, and a deputation from a number of regiments. Requiem will be sung to-morrow for the victims of the massacres, and for those killed in battle.

Alexandria, 25.—The Khedive and Sir Edward Malet, British consul general, departed for Cairo this morning. The Bengal Lancers escorted them to the way station. The route of the line was guarded with troops, and the station was decorated. An English band played the Egyptian national anthem. The ministry went to Cairo on the same train.

Damietta, 25.—Abdallah Pasha and Suleiman have been sent to Cairo as prisoners, under military guard.

Cairo, 24.—Elaborate preparations are making for the reception of the Khedive. The Khedive ordered that the route of entry be changed in such a way that he shall pass the houses of Arabi Pasha and Toleba Pasha. It is thought no rebel will be accused. It is believed they will be banished and their property confiscated. European residents and European officers in the service of the Khedive violently denounce Arabi Pasha. They say hanging is too good for him.

Cairo, 25.—Among Arabi Pasha's papers are written offers of service from French, German and Russian officers, which were all declined.

Arabi Pasha says the best thing the English could do for Egypt would be to send all notables and other leading men connected with the rebellion out of the country. If they do not do so, vengeance will surely be wreaked upon them after their departure. Seeing the manner in which the British treat their prisoners and wounded, Arabi says they are a great people, and that he is heartily sorry he fought them. He asserts he never thought the English would send a large army to assist the Khedive, and so led in the war. He denies that he had any communication with the Sultan during the war.

The Khedive and Egyptian ministers, accompanied by Ambassador Malet, arrived at 3.15 this afternoon, and was received at the depot by the Duke of Connaught and General Wolseley. A detachment of Grenadiers were drawn up on the station platform, and the household cavalry lined the approach to the depot. The artillery fired a salute on the arrival of the train, and the band of Grenadiers was playing an anthem. The Khedive, the Duke of Connaught, General Wolseley and Sir Edward Malet entered the same carriage and were driven to Ghezvreh palace. The streets through which they passed were densely crowded and lined by almost all the English Indian troops now here. Natives gathered along the route numbering many thousands and gave the Khedive a very friendly welcome. All the Alemas, as well as the Sheikh of El Ashar Mosque and the Kadis, were at the depot.

General Wood has arrived, and stated that the Khedive will shortly issue a decree granting general amnesty to rebels, except about six, who will be tried for their lives, being implicated in the massacres and conflagration at Alexandria.

Constantinople, 24.—It is said the grand sheriff of Mecca was deposed on account of having had treasonable relations with Arabi Pasha.

Constantinople, 25.—The Khedive, with the approval of England, offered Baker Pasha the reorganization of the Egyptian army. He accepted the task.

Alexandria, 25.—Flags were displayed yesterday in Benha Taah and Damahawi in celebration of the Khedive's return: about 150,000

persons witnessed the Khedive's entry. De Lessep's house was without decoration.

Voluntary Surrender.

Kansas City, 25.—Col. Jas. B. Price, one of the most prominent mail contractors in the west and one of the defendants now under indictment at Washington for star route conspiracy, appeared before the United States court, to-day, and voluntarily surrendered himself, presenting a copy of the indictment and warrant issued from Washington. Col. Price states that he has been some time absent from home, under medical treatment. As soon as he returned and was informed of the matter he came to make answer to the authorities. He gave bonds in the sum of \$10,000 to appear before the next term of the court, and the bond has been forwarded to Washington for approval.

Davitt's Problem.

Dublin, 25.—The problem propounded by Davitt is for the formation of a gigantic organization, whose leading objects will be the improvement, social and political, of the condition of the Irish, and the prevention of emigration by obtaining profitable employment for laborers and evicted tenants. The scheme will be discussed at the convention of the Irish Nationalists. Parnell refuses to participate in the project, on the ground that the formation of such an organization would be impossible under the existing coercion act. Egan, Brennan and Kelly desire a discussion of the subject.

Yellow Fever.

Washington, 25.—The total cases of yellow fever at Brownsville thus far is 1,870; deaths 139. All communication is cut off with the infected districts in Mexico. Cases at Pensacola, 344; deaths, 41. Minor Stocks.

Mining stocks very dull, except Robinson consolidated which is active and strong advancing to 135@145; Silver Cliff, sold at 71@73; State Lines Nos. 2 and 3 at 20 and 21; Oriental and Miller at 18; and South Pacific at 14 1/2. Sales for the day 68,370 shares.

Indian Talk.

Omaha, 25.—Information is received here that Dr. McGillicuddy, agent at the Pine Ridge Agency, has telegraphed to Col. Sumner at Fort Robinson, that 200 northern Cheyenne Indians were leaving the agency under the leadership of Black Wolf. They left word that they want with the most resolute intentions; that they had good hearts and intended to commit no depredations; that they were longing for a change, and were going to Fort Keogh via Pumpkin Butte, along the old Indian trail, the distance being 300 miles. The interior department has been notified, but refuses to interfere, and Agent McGillicuddy has been so notified, as well as to use no force either to detain them or bring them back. It is not generally believed these Indians will do any mischief, in that they are honest in the statement of the reason why they leave.

General Howard has been telegraphed to to-day, at Fort Bridger, that Inspector Pollock is carrying on the investigation at Pine Ridge, of the recent Sioux dissatisfaction, with a high hand, and that the testimony of every Sioux man and half breed is eagerly accepted against his administration. Pine Ridge Two papers, one signed by the leading chief of the Sioux nation, and the other endorsed by the whites living on the agency, have been forwarded to the interior department, asking that McGillicuddy be sustained, and highly recommend his administration of affairs. It is believed by many that Pollock will not make an impartial investigation. Among those who know him there is no question as to McGillicuddy's honesty. The principal charges against him by Red Cloud and some of the dissatisfied chiefs is tyranny.

The Scoville Scandal.

Chicago, 25.—George Scoville to-day filed an answer and a cross bill to the petition of his wife, Francis M. Scoville, for a divorce. He charges her with unchaste and unwelcome conduct, particularly in that she fell desperately in love with one George E. Earle, and that she visited him so constantly he was obliged to change his boarding place, and finally he had to forbid her coming to his office; that the two kept up a constant correspondence; that she told her husband she was as much Earle's wife as if she had been married to him 100 years; that she had been largely led into queer notions by George Francis Earle; she was also very intimate with Dr. Mary Walker, N. C. Bolin and Lewis Hanchett.
